The Safe Miles Program

Safe Miles is a part of the Rider Education Levels Program. Safe Miles is defined as the number of accident free miles driven on your motorcycle since joining GWRRA. It is a means of tracking the number of safe, accident free miles that have been ridden while in GWRRA. Miles accumulated prior to becoming a member are not eligible under Safe Miles. If/when an accident occurs, the participant in the Safe Miles Program reverts to 0 Safe Miles. An accident is defined as any incident that results in reportable property damage or personal injury during the operation or use of a motorcycle. Reportable includes, but is not limited to, any law enforcement accident report or insurance claim that was filed as a result of the incident.

The Safe Miles Pins are available in 5,000-mile (8,000 km) increments through 95,000 miles (154,000 km). At 100,000 safe miles (160,000 km) [or additional increments of 100,000 safe miles (160,000 km)] a rocker patch is available. Thus at 105,000 safe miles the Member applies for both a rocker and a pin.

The High Mileage Program

The High Mileage Program is separate from and *not* a part of the Rider Education Levels Program. It should, however, be administered by the Chapter Educator. This program is provided for those who wish to display their total mileage ridden on all motorcycles. All members may participate in this program. The mileage applied for includes *all* miles ridden on *any brand* of motorcycle, *both prior to and after* becoming a GWRRA member. Accidents do not affect these miles.

The minimum required mileage is 50,000 miles (80,000 km). Initially, with the first 50,000 miles, (80,000 Kms) the applicant will receive a High Mileage Pin and a 50,000 Mile Hanger Bar. Additional Mileage Bars are available thereafter in 50,000 mile (80,000 Kms) increments as additional miles are accumulated.
